

INVERTER

CUP HOLDER DESIGN
150W

NEW CN-150USB

Modified Sine Wave

Intelligent
Microcontroller

Quick Charge 3.0

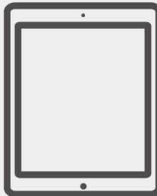

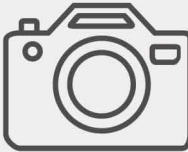

FEATURES

- Qualcomm® Quick Charge 3.0 USB Port
- Intelligent Temp & Load Cooling Fan
- Microcontroller Integrated
- Multi Pre-Alarm & Shutdown Alarm Protections
- Compact Cup Holder Design

Applications

Protections

 Mobile phone	 Over Temperature Protection	 Reverse Polarity Protection
 Tablet	 Over Load Protection	 Short Circuit Protection
 Computer	 Low Voltage Protection	 Aluminum Housing
 Camera	 High Voltage Protection	
 Drone		

Perfect Fit for Digital and Mobile Devices on the Road Trips

CN-150USB is designed for all laptops, smartphones, and digital portables under 150W.

Highlighted features including:

The microcontroller provides safety protections to prevent digital devices from potential electrical damage.

The QC 3.0 automatically identifies smartphones to provide the best charging speed.

All the functionalities are integrated into one compact cup holder design, conveniently within your grasp!
